

Benefits of UV Supershield

1. Stable integrity over years of exposure
2. Maximum protection of coated materials
3. Ultimate long-term stability and resistance
4. Non-toxic, Non-leaching, USDA approved
5. Hydrophobic, Oleophobic, Hard, Flexible
6. Eliminates oxidation of coated material
7. Simple preparation and coating application
8. 1 or 2 coats/re-coat without stripping
9. Graffiti resistant, stain proof, soils do not stick
10. Repetitive Stripping and re-coating
11. Restores colour/long term protection
12. Enhances durability of substrates
13. Non-toxic and inert
14. Extends life cycle of products
15. Minimizes maintenance
16. Covers large area
